LUMINA KASTURI ASSURANCE BERHAD

Kasturi HomeCare & Health Plan

Policy Wording

LKA/HHP/PW/2026-01 · Applicable to policies incepting or renewing on or after 1 July 2026

SYNTHETIC DOCUMENT — FOR TECHNICAL TESTING ONLY. Lumina Kasturi Assurance Berhad is a fictional insurer, and this document is one of four synthetic documents (Product Disclosure Sheet, Policy Wording, Benefits Schedule and Claims Procedure Guide) written to test retrieval and question-answering systems. It is not an offer of insurance, does not describe any real product, and must not be relied on for any real insurance decision. All names, addresses, telephone numbers, web addresses, premiums and benefit amounts are invented. References to Malaysian legislation and institutions are included for realism only and may not reflect the law accurately.

Part 1 — The Contract

1.1 This Policy is a contract of insurance between the Policyholder and Lumina Kasturi Assurance Berhad (the "Company"). The contract consists of this Policy Wording, the Policy Schedule, the Benefits Schedule (Document Ref. LKA/HHP/BS/2026-01), any endorsement issued by the Company, and the proposal form and declarations made by or on behalf of the Policyholder and each Insured Person. The Claims Procedure Guide (Document Ref. LKA/HHP/CPG/2026-01) forms part of this contract to the extent, and only to the extent, that it prescribes the time limits, forms and documents referred to in Condition 6.4. The Product Disclosure Sheet does not form part of the contract.

1.2 These documents shall be read together as one contract. In the event of inconsistency, an endorsement prevails over the Policy Schedule, the Policy Schedule prevails over the Benefits Schedule, and the Benefits Schedule prevails over this Policy Wording, but only as regards the amount of any limit, sub-limit, Excess, Co-insurance percentage, day-count or other figure. Nothing in the Benefits Schedule shall be construed as extending cover to any loss or expense that is excluded under Part 5, and the appearance of a benefit in the Benefits Schedule for a particular tier is not by itself confirmation that a given loss or expense falls within that benefit.

1.3 In consideration of the Policyholder having paid or agreed to pay the premium, and subject to the terms, conditions, limits and exclusions of this Policy, the Company will indemnify the Policyholder under Section A, and will reimburse the Policyholder or pay on behalf of an Insured Person under Section B, in respect of events occurring or treatment received during the Period of Insurance.

1.4 Headings are for convenience only and do not affect interpretation. Words importing the singular include the plural and vice versa. All amounts are in Ringgit Malaysia. References to Clauses A1 to A8 are to Part 3, references to Clauses B1 to B9 are to Part 4, and references to Exclusions and Conditions are to Parts 5 and 6 respectively. A word or expression that begins with a capital letter has the meaning given to it in Part 2 wherever it appears in this Policy Wording, the Benefits Schedule, the Claims Procedure Guide or the Policy Schedule.

Part 2 — Definitions

The following definitions apply throughout the contract. Terms relating solely to the administration of claims, namely Catastrophe Event, Complete Claim, Guarantee Letter, Loss Adjuster and Panel Hospital, are defined in Section 1 of the Claims Procedure Guide and carry those meanings where they are used in this Policy Wording.

"Accident" means a sudden, unforeseen and involuntary event caused by external, violent and visible means, occurring during the Period of Insurance.

"Accidental Damage" means sudden, unexpected and visible physical damage to Contents which is not caused deliberately and which does not arise from wear and tear, Gradual Deterioration, mechanical or

electrical breakdown, or the process of cleaning, repairing or restoring the item. Accidental Damage is an Insured Peril only where the Benefits Schedule shows it as available for the tier selected.

"Buildings" means the private dwelling at the Insured Premises, constructed of brick, stone or concrete and roofed with tiles, metal or concrete unless otherwise declared, together with its permanent fixtures and fittings. Permanent fixtures and fittings include built-in wardrobes and kitchen cabinets, fixed wall-mounted and ceiling-cassette air-conditioning units together with their outdoor compressor units, water heaters, water tanks and pumps, sanitary ware, fixed flooring including tiles, parquet and laminate, fixed light fittings, ceiling fans, and solar panels fixed to the roof. Buildings also includes, for landed property, boundary walls, gates, fences, auto-gate motors, car porches, driveways and swimming pools within the boundary of the Insured Premises. For a parcel within a strata development, Buildings means only those parts of the parcel for which the Policyholder is responsible under the applicable strata by-laws or deed of mutual covenant, and does not include common property. Buildings does not include land, trees, plants or lawns.

"Co-insurance" means the percentage of eligible expenses under Section B that is borne by the Insured Person, as shown in the Benefits Schedule, after which the Company pays the balance subject to the applicable limit.

"Congenital Condition" means any medical, physical or mental abnormality, deformity or condition that is present at birth, whether or not it is diagnosed or manifested at birth, including any inherited disorder.

"Contents" means household goods and personal effects owned by, or the legal responsibility of, the Policyholder or any member of the Policyholder's family who permanently resides at the Insured Premises, while they are within the Buildings. Contents includes Valuables, Money, portable and window-mounted air-conditioning units, loose carpets and rugs, curtains and blinds, and tenant's improvements made by a Policyholder who does not own the Buildings. Contents does not include motor vehicles, motorcycles, bicycles used for commercial delivery, boats, animals, plants, property held or used for any trade, profession or business, deeds, bonds, securities, or any part of the Buildings.

"Day Surgery" means a surgical procedure performed in a Hospital or in a licensed ambulatory care centre, requiring the use of an operating theatre and the administration of general or regional anaesthesia, where the Insured Person is admitted and discharged on the same day without occupying a bed overnight. Day Surgery does not include a procedure performed in a Medical Practitioner's clinic or consultation room under local anaesthesia, which is Outpatient Treatment.

"Disability" means an Illness or Injury, together with all related complications and all conditions arising from the same or a related cause. Where an Insured Person is readmitted for the same or a related condition within 90 days of discharge, both admissions are treated as one Disability. A readmission after that 90-day interval is treated as a new Disability.

"Effective Date" means the date on which cover under the relevant Section first commences for the Policyholder or, under Section B, for the Insured Person concerned, as stated in the Policy Schedule.

"Emergency" means the sudden onset of a medical condition manifesting itself by acute symptoms of such severity that the absence of medical attention within 24 hours could reasonably be expected to result in death, serious jeopardy to the health of the Insured Person, or serious impairment of a bodily function. The fact that treatment was sought outside a Medical Practitioner's normal working hours does not of itself make it an Emergency.

"Escape of Water" means the sudden and unforeseen discharge or overflow of water from any fixed water tank, pipe, apparatus or plumbing installation, including a water heater, a fixed air-conditioning unit, and a washing machine or dishwasher that is permanently plumbed in, whether that installation is located within the Insured Premises or within an adjoining parcel or the common property of the same building. Escape of Water does not include Flood; water entering the Buildings through a roof, wall, door, window or other opening as a result of rainfall; the discharge or overflow of roof gutters, downpipes, drains or sewers; or water that has escaped gradually or seeped over a period of time.

"Excess" means the amount, shown in the Benefits Schedule, that the Policyholder must bear in respect of each and every event giving rise to a claim under Section A before the Company becomes liable to pay.

Different Excess amounts apply to different Insured Perils. The Excess is applied after any reduction under the average condition in Clause A6.

"Flood" means the inundation of normally dry land or of the Insured Premises by water which has escaped or been released from the normal confines of any natural or artificial watercourse, river, lake, reservoir, canal, dam, monsoon drain or public drainage or sewerage system, or from the sea (including storm surge and tsunami), or by the accumulation of surface water or the rising of groundwater as a result of rainfall, where such water enters the Buildings at or below ground-floor level. Flood includes damage caused by mud, silt and debris carried by such water. Flood does not include Escape of Water, even where both occur during the same event.

"Gradual Deterioration" means wear and tear, depreciation, rust, corrosion, oxidation, rot, mould, mildew, fungus, damp, condensation, the action of light or atmosphere, insects or vermin (including termites), and any damage that develops or is caused progressively over a period of time, including the progressive failure of tile grouting, sealant, waterproofing membranes and roof coverings.

"Hospital" means an establishment licensed as a private hospital under the Private Healthcare Facilities and Services Act 1998, or a government hospital, which has facilities for diagnosis, treatment and major surgery and provides 24-hour nursing services by registered nurses. Hospital does not include a clinic, a nursing or convalescent home, a rehabilitation centre, a hospice, a spa or hydro-clinic, or any facility primarily for the treatment of drug or alcohol dependence or the care of the aged.

"Hospitalisation" means admission of an Insured Person to a Hospital as an Inpatient for a period of at least six consecutive hours, on the written recommendation of a Medical Practitioner, for Medically Necessary treatment of a Disability, where a daily room and board charge is incurred. For the purposes of the Surgical Fees, Pre-hospitalisation and Post-hospitalisation benefits only, Day Surgery is treated as Hospitalisation; Day Surgery does not give rise to any entitlement to Hospital Room and Board or to the Government Hospital Daily Cash Allowance.

"Illness" means a sickness or disease that causes a pathological deviation from the normal healthy condition of the body and that requires treatment by a Medical Practitioner.

"Injury" means bodily injury caused solely and directly by an Accident, independently of any Illness or other cause.

"Inpatient" means an Insured Person who is registered as admitted to a Hospital and who occupies a Hospital bed for Hospitalisation.

"Insured Person" means each person named as an Insured Person under Section B in the Policy Schedule.

"Insured Premises" means the private residence at the address shown in the Policy Schedule, used solely for domestic purposes, and, for landed property, the land within its boundary.

"Medical Practitioner" means a person holding a valid practising certificate issued by the Malaysian Medical Council, practising within the scope of that registration, who is not the Insured Person, the Policyholder, or a relative of either of them.

"Medically Necessary" means a service or supply that is consistent with the diagnosis and customary treatment of the condition, is in accordance with generally accepted standards of medical practice in Malaysia, is not primarily for the convenience of the Insured Person, the family or the Medical Practitioner, and, in the case of Hospitalisation, could not safely be provided on an outpatient basis.

"Money" means cash, bank notes and coins in current use, postal and money orders, and pre-paid stored-value cards, held for private purposes.

"Outpatient Treatment" means treatment received by an Insured Person who is not an Inpatient, including treatment at the emergency department of a Hospital where the Insured Person is not subsequently admitted, and treatment at a general practitioner's or specialist's clinic. Day Surgery is not Outpatient Treatment.

"Overall Annual Limit" means the maximum amount, shown in the Benefits Schedule, that the Company will pay under Section B in respect of each Insured Person in any one Period of Insurance, irrespective of the number of Disabilities.

"Period of Insurance" means the period stated in the Policy Schedule, normally twelve months, and each subsequent period for which the Policy is renewed.

"Policyholder" means the person named as Policyholder in the Policy Schedule.

"Pre-existing Condition" means any Disability, and any condition from which a Disability later arises, in respect of which, during the twelve months immediately preceding the Effective Date or the date of the most recent reinstatement (whichever is later), the Insured Person (a) received or was recommended to receive medical advice, consultation, investigation, diagnosis, care or treatment; or (b) had signs or symptoms which would have caused an ordinarily prudent person to seek diagnosis, care or treatment; or (c) was aware, or should reasonably have been aware, of the existence of the condition. A Pre-existing Condition may have been declared in the proposal form or may be undeclared, and the treatment of each is different under Exclusion 5.3.1.

"Reasonable and Customary Charges" means charges for Medically Necessary treatment that are consistent with the charges generally made in the same locality by providers of similar standing for similar treatment of a person of similar sex and age, having regard to any schedule of fees published under Malaysian law for private healthcare facilities.

"Specified Illnesses" means any of the following conditions and their related complications: hypertension and cardiovascular disease; diabetes mellitus; all tumours, cysts, nodules, polyps and growths, whether benign or malignant; hernias; haemorrhoids; fistulae; cataracts; tonsillitis and adenoid conditions requiring surgery; sinusitis requiring surgery; endometriosis and diseases of the uterus; and stones of the urinary or biliary system.

"Storm" means a violent wind, whether or not accompanied by torrential rain, thunder or hail, including a thunderstorm, windstorm, monsoonal squall or tornado, of an intensity that causes damage to a number of properties in the vicinity of the Insured Premises. Storm does not include Flood, even where the Flood results from the same weather system.

"Sum Insured" means the amount shown in the Policy Schedule for Buildings or for Contents, as the case may be, which represents the Company's maximum liability for that category in respect of any one event, subject to any lower limit in the Benefits Schedule.

"Unoccupied" means that no person has slept overnight at the Insured Premises with the Policyholder's authority for a continuous period exceeding the number of consecutive days shown in the Benefits Schedule for the tier selected. The Insured Premises are not treated as occupied merely because furniture remains within them, because a person visits during the day, or because a security guard patrols the development. A domestic helper who resides and sleeps at the Insured Premises with the Policyholder's authority is a person occupying the Insured Premises.

"Valuables" means jewellery, watches, articles of gold, silver or other precious metals, precious and semi-precious stones, furs, works of art, collections of stamps, coins or medals, cameras and lenses, laptop and tablet computers, mobile telephones, smart watches, and portable audio and gaming devices.

"Waiting Period" means the period, set out in Clause B5, beginning on the Effective Date or on the date of reinstatement, during which no benefit is payable under Section B for the conditions specified in that Clause. The Waiting Period applicable to the Special Perils Extension under Section A is separately set out in Clause A4.

Part 3 — Section A: HomeCare

A1. What is covered

A1.1 The Company will indemnify the Policyholder against physical loss of or damage to the Buildings and the Contents, to the extent that each is shown as insured in the Policy Schedule, caused by any of the Insured Perils in Clause A2 occurring during the Period of Insurance, up to the relevant Sum Insured and subject to the limits, sub-limits and Excesses in the Benefits Schedule.

A1.2 Where the Policyholder is a tenant and has insured Contents only, the Company will not pay for damage to the Buildings except to the extent that the Policyholder's tenant's improvements fall within the definition of Contents.

A2. Insured Perils

A2.1 Fire, lightning, and explosion of domestic gas cylinders, gas piping or domestic boilers, but excluding loss of or damage to any electrical appliance or installation caused by its own short-circuiting, over-running or excessive pressure unless fire spreads beyond that appliance or installation.

A2.2 Storm, including damage caused by rain entering the Buildings through an opening in the roof, walls, doors or windows which has itself been created by the Storm at the same time. Damage caused by rain which enters through an opening that existed before the Storm, or through a roof, wall or window that was not physically damaged by the Storm, is not covered under this Clause and is subject to Exclusion 5.2.3.

A2.3 Escape of Water.

A2.4 Theft or attempted theft involving forcible and violent entry into or exit from the Buildings, or theft by a person who has obtained entry by deception or by the use of force or threat of force against a person within the Buildings.

A2.5 Impact by any road vehicle, animal, aircraft or article dropped from an aircraft, or by a falling tree, branch, lamp-post or telecommunications mast, provided that the cost of removing a fallen tree or branch is covered only where it has caused damage to the Buildings.

A2.6 Riot, strike, civil commotion and malicious damage, excluding malicious damage caused by the Policyholder, any member of the household, any tenant or lodger, or any person lawfully on the Insured Premises.

A2.7 Accidental Damage to Contents, but only where the Benefits Schedule shows this peril as available for the tier selected and subject to the sub-limit shown there.

A2.8 Damage to electrical appliances and fixed electrical installations caused by a power surge or fluctuation in the public electricity supply, but only where the Benefits Schedule shows this peril as available for the tier selected and subject to the sub-limit shown there.

A3. Additional benefits

A3.1 The following additional benefits are payable in respect of an event giving rise to a valid claim under Clause A1, or where so stated independently of such a claim, subject to the limits in the Benefits Schedule. Unless the Benefits Schedule states otherwise, amounts payable under this Clause are payable in addition to the Sum Insured.

A3.2 Tracing and Access. The reasonable cost of locating the source of an Escape of Water within the Buildings, including the removal and replacement of tiles, flooring, plaster, ceiling boards and cabinetry for that purpose and making good the resulting damage. This benefit is payable only where the damage caused by the Escape of Water, if any, would itself be covered under Clause A2.3, and does not include the cost of repairing or replacing the pipe, fitting or apparatus from which the water escaped.

A3.3 Alternative Accommodation. Where the Buildings are rendered uninhabitable by an Insured Peril, the reasonable additional cost of comparable temporary accommodation for the Policyholder, family members residing at the Insured Premises and domestic pets, for the period reasonably required to make the Buildings habitable again, subject to the percentage of the Buildings Sum Insured and the maximum number of months shown in the Benefits Schedule. Where the Policyholder insures Contents only, this benefit is payable only where the Policyholder remains liable to pay rent for the Insured Premises during that period.

A3.4 Removal of Debris and Professional Fees. Costs necessarily incurred with the Company's consent in removing debris, demolishing, shoring up or propping, and architects', surveyors' and engineers' fees (but not fees for preparing a claim), subject to the percentage limit shown in the Benefits Schedule. Amounts payable under this Clause form part of, and are not payable in addition to, the Buildings Sum Insured.

A3.5 Loss of Metered Water. The cost of metered water lost as a result of an Escape of Water for which a valid claim is paid under Clause A2.3.

A3.6 Replacement of Locks. The cost of replacing locks to external doors and windows of the Buildings where the keys have been stolen, whether or not from the Insured Premises, provided that the theft is reported to the police within the time stated in the Claims Procedure Guide.

A3.7 Loss of Rent. Where the Policyholder owns the Buildings and has declared that the Buildings, or part of them, are let, the rent lost while the Buildings are uninhabitable as a result of an Insured Peril, where the Benefits Schedule shows this benefit as available for the tier selected. Alternative Accommodation and Loss of Rent are not both payable in respect of the same part of the Buildings for the same period.

A4. Special Perils Extension

A4.1 Where, and only where, the Policy Schedule states that the Special Perils Extension applies, the Insured Perils in Clause A2 are extended to include (a) Flood; (b) landslip, landslide, subsidence and heave of the site on which the Buildings stand, other than settlement of new structures within the first twelve months after construction and damage to boundary walls, driveways or swimming pools unless the Buildings are damaged at the same time; and (c) earthquake and volcanic eruption.

A4.2 The Company will not pay for loss or damage caused by Flood, landslip or earthquake occurring within seven days after the date on which the Special Perils Extension is first added to the Policy, whether at inception or mid-term. This waiting period does not apply on renewal of a Policy on which the Special Perils Extension was in force without interruption during the immediately preceding Period of Insurance, nor where the Special Perils Extension is added at the same time as the Policy first incepts in connection with the purchase of the Insured Premises financed by a housing loan.

A4.3 All loss or damage caused by Flood occurring within any period of 72 consecutive hours shall be treated as a single event, to which a single Excess applies. The Policyholder may choose the moment from which any such 72-hour period begins, provided that no two periods overlap.

A4.4 The availability of the Special Perils Extension, and the limits and Excesses that apply to each special peril, differ between tiers and are set out in the Benefits Schedule.

A5. Basis of settlement

A5.1 Buildings. Where the Buildings are damaged, the Company will pay the cost of repairing the damage or, where the Buildings are destroyed, of reinstating them to a condition equal to but not better or more extensive than their condition when new, provided that reinstatement is carried out without unreasonable delay. Until reinstatement has been carried out, the Company's liability is limited to the amount that would have been payable had the Company indemnified the Policyholder on the basis of the value of the damaged property immediately before the loss, after allowance for wear and tear.

A5.2 Contents. Where Contents are lost or destroyed, the Company will pay the cost of replacing them with new articles of the same kind and capacity, except for clothing and household linen, for which a deduction will be made for wear and tear and depreciation. Where an article can be economically repaired, the Company will pay the cost of repair. The Company will not pay for the cost of replacing or altering any undamaged article that forms part of a set, suite or matching group, and will not pay more than the proportion of the cost of the set that the damaged article represents.

A5.3 Matching. Where damaged tiles, flooring or fixtures cannot be matched, the Company will pay for the replacement of the damaged items and of undamaged items in the same room or continuous area only, and not in any adjoining room or area.

A6. Average (underinsurance)

A6.1 If, at the time of any loss or damage, the Sum Insured for Buildings is less than 85% of the cost of reinstating the Buildings in full, or the Sum Insured for Contents is less than 85% of the cost of replacing all Contents as new, the Company will pay only that proportion of the loss or damage which the Sum Insured bears to the full reinstatement or replacement cost. This condition applies separately to Buildings and to Contents. It does not apply to claims under Clause A3.2, A3.5 or A3.6.

A7. Automatic reinstatement of Sum Insured

A7.1 Following payment of a claim, the Sum Insured is automatically restored to its original amount from the date of loss without additional premium, provided that the Policyholder carries out any repair or replacement recommended by the Company. This Clause does not apply to the Flood, landslip and earthquake limits under the Special Perils Extension, which are annual aggregate limits and are reduced by the amount of each claim paid for the remainder of the Period of Insurance.

A8. Excess

A8.1 The Excess shown in the Benefits Schedule applies to each and every event. Where an event causes damage by more than one Insured Peril, only the highest applicable Excess is deducted. Where the Benefits Schedule provides that an Excess is increased when the Insured Premises were not occupied at the time of the loss, the increased Excess applies even where the Insured Premises were not Unoccupied within the meaning of Part 2.

Part 4 — Section B: Health

B1. What is covered

B1.1 If, during the Period of Insurance and after the expiry of any applicable Waiting Period, an Insured Person suffers a Disability which requires Hospitalisation or other treatment falling within Clauses B2 to B4, the Company will reimburse the Reasonable and Customary Charges incurred for Medically Necessary treatment of that Disability, or will pay those charges directly to a Panel Hospital under a Guarantee Letter, subject to the limits shown in the Benefits Schedule for the tier selected, to the Co-insurance in Clause B6, and to the Overall Annual Limit.

B1.2 All benefits paid under Section B, whether inpatient or outpatient, count towards and reduce the Overall Annual Limit, with the sole exception of the Government Hospital Daily Cash Allowance under Clause B7. Where the Benefits Schedule expresses a limit "per Disability", that limit applies separately to each Disability; where it expresses a limit "per Period", that limit applies to all Disabilities combined in the Period of Insurance. A limit expressed "as charged" is subject to Reasonable and Customary Charges and to the Overall Annual Limit.

B2. Inpatient benefits

B2.1 During Hospitalisation, the Company will pay for Hospital room and board, intensive care unit charges, hospital supplies and services (including operating theatre, drugs and dressings prescribed for use in the Hospital, laboratory and radiology services), surgical fees, anaesthetist's fees, in-hospital physician's visits, and, where the Insured Person is a child aged under 12, a daily allowance for one parent or guardian who stays in the same room.

B2.2 Room and board is payable at the actual daily charge, up to the daily limit shown in the Benefits Schedule. Where the Insured Person occupies a room of a higher category than the tier's daily limit permits, the Company will pay the daily limit only and will also apply the same proportionate reduction to the hospital supplies and services charges, since those charges vary with the room category selected. This proportionate reduction does not apply where no room of the eligible category was available at the time of an Emergency admission and the Insured Person transferred to such a room when one became available.

B2.3 Medication supplied on discharge is payable as part of the inpatient benefits up to a maximum of a 14-day supply. Any supply beyond 14 days is payable, if at all, only under the Post-hospitalisation benefit.

B3. Pre-hospitalisation and Post-hospitalisation benefits

B3.1 Pre-hospitalisation. The Company will pay for diagnostic tests (including laboratory, radiology and imaging) and specialist consultations received within the number of days before Hospitalisation shown in the Benefits Schedule, provided that the tests or consultations relate to the Disability for which the Insured Person is subsequently hospitalised. Tests or consultations which do not result in Hospitalisation, including tests which lead to a diagnosis that is then treated on an outpatient basis only, are not payable under this Clause.

B3.2 Post-hospitalisation. The Company will pay for follow-up treatment by the attending Medical Practitioner for the same Disability, including consultations, diagnostic tests, prescribed medication and physiotherapy prescribed by the attending Medical Practitioner, received within the number of days after discharge shown in the Benefits Schedule. Post-hospitalisation treatment by a practitioner of traditional and complementary medicine is payable only to the extent set out in Exclusion 5.3.12 and the Benefits Schedule.

B3.3 Although pre-hospitalisation and post-hospitalisation treatment is received on an outpatient basis, it is paid as part of the inpatient benefits for the Disability concerned and does not reduce any outpatient limit under Clause B4. Conversely, treatment that is not linked to a Hospitalisation cannot be claimed under this Clause merely because it falls within the day-count shown in the Benefits Schedule.

B4. Outpatient benefits

B4.1 Outpatient Treatment is covered only under the categories set out in this Clause, each of which is subject to its own limit in the Benefits Schedule. Outpatient Treatment falling outside these categories is excluded under Exclusion 5.3.9.

B4.2 Emergency Accident Outpatient Treatment. Outpatient Treatment of an Injury received within 24 hours after the Accident at a Hospital emergency department or at a clinic, together with follow-up Outpatient Treatment of the same Injury within 30 days after the Accident. Dental treatment required to restore sound natural teeth damaged in the Accident is included, provided that it is commenced within the same 24-hour period. Where the Injury results in Hospitalisation, treatment after the Hospitalisation is payable only as Post-hospitalisation under Clause B3.2 and not under this Clause.

B4.3 Outpatient Cancer Treatment. Radiotherapy, chemotherapy, targeted therapy and immunotherapy for a malignancy confirmed by histopathology, received as Outpatient Treatment, including the consultation at which the treatment is administered.

B4.4 Outpatient Kidney Dialysis. Haemodialysis or peritoneal dialysis for end-stage renal failure, including the consultation at which the dialysis is administered and erythropoietin administered in connection with dialysis.

B4.5 General Outpatient Consultation. Consultations with a general practitioner for an Illness, and prescribed medication dispensed at that consultation, where the Benefits Schedule shows this benefit as available for the tier selected.

B4.6 Specialist Outpatient Consultation. Consultations with a specialist Medical Practitioner upon written referral by a general practitioner, where the Benefits Schedule shows this benefit as available for the tier selected. A specialist consultation which is followed within the Pre-hospitalisation period by Hospitalisation for the same Disability is paid under Clause B3.1 and not under this Clause.

B5. Waiting Periods

B5.1 No benefit is payable under Section B for any Disability caused by Illness, the symptoms of which first manifest, or which is first diagnosed or treated, within 30 days after the Effective Date.

B5.2 No benefit is payable under Section B for any Specified Illness, or any Disability arising from a Specified Illness, the symptoms of which first manifest, or which is first diagnosed or treated, within 120 days after the Effective Date.

B5.3 No Waiting Period applies to a Disability caused by Injury.

B5.4 The Waiting Periods in Clauses B5.1 and B5.2 run again in full from the date of any reinstatement under Condition 7.4. They do not run again on continuous renewal without lapse, nor during or after a Deferment Period under Condition 7.5.

B5.5 Where an Insured Person's tier is upgraded at renewal, the additional benefits over and above those of the previous tier are subject to the Waiting Periods in Clauses B5.1 and B5.2 as if the date of the upgrade were the Effective Date, and during those Waiting Periods the Company will pay benefits for any Illness at the level of the previous tier. A downgrade of tier takes effect immediately and is not subject to any Waiting Period.

B6. Co-insurance

B6.1 The Co-insurance percentage and any annual cap on the Insured Person's share are shown in the Benefits Schedule. Co-insurance is applied to the eligible amount after deduction of any amount paid by another insurer under Condition 6.6 and before application of the Overall Annual Limit. The Benefits Schedule specifies the benefits to which Co-insurance does not apply, and the adjustment to Co-insurance that applies when treatment is received otherwise than at a Panel Hospital.

B7. Government Hospital Daily Cash Allowance

B7.1 Where an Insured Person is hospitalised as an Inpatient in a government hospital in Malaysia for a Disability that would otherwise be covered under Section B, the Company will pay the daily cash allowance shown in the Benefits Schedule for each complete day of Hospitalisation, up to the maximum number of days shown there. This allowance is payable whether or not the Insured Person has incurred any charges, is payable in addition to any reimbursement of charges actually incurred, is not subject to Co-insurance, and does not count towards the Overall Annual Limit. It is not payable for Day Surgery or for any admission to a government hospital's private wing where the Insured Person is charged private-patient rates, which is reimbursed under Clause B2 instead.

B8. Treatment outside Malaysia

B8.1 Treatment received outside Malaysia is covered only where it is received for an Emergency arising while the Insured Person is temporarily outside Malaysia for a trip not exceeding 90 consecutive days, and is payable at the Reasonable and Customary Charges that would have applied to the same treatment in a private Hospital in Kuala Lumpur, converted at the exchange rate prevailing on the date of the invoice. Any treatment received outside Malaysia after the Insured Person's condition has stabilised sufficiently for travel back to Malaysia is excluded.

B9. Continuity and age limits

B9.1 A person may be added as an Insured Person up to the age of 65 next birthday, and a child from the age of 30 days. Section B is renewable in respect of each Insured Person up to the renewal immediately following the Insured Person's 80th birthday. The Company will not decline to renew Section B for an Insured Person, or impose a new exclusion or loading on an Insured Person at renewal, by reason of that Insured Person's claims history or any change in health arising after the Effective Date.

Part 5 — Exclusions

The exclusions in this Part apply in addition to the limits, sub-limits, Excesses and Co-insurance in the Benefits Schedule. An exclusion applies even where the loss or expense would otherwise fall within a benefit shown as available for the tier selected.

5.1 General exclusions applicable to Sections A and B

5.1.1 War, invasion, act of foreign enemy, hostilities (whether war be declared or not), civil war, rebellion, revolution, insurrection, military or usurped power, and any act of terrorism, save that under Section B Injury sustained by an Insured Person as an innocent bystander to an act of terrorism is not excluded.

5.1.2 Ionising radiation or contamination by radioactivity from any nuclear fuel or waste, and the radioactive, toxic, explosive or other hazardous properties of any nuclear assembly or component.

5.1.3 Any loss, expense or liability deliberately caused by or with the connivance of the Policyholder or an Insured Person.

5.1.4 Any claim, benefit or payment to the extent that providing it would expose the Company to any sanction, prohibition or restriction under United Nations resolutions or the trade or economic sanctions laws or regulations applicable in Malaysia.

5.2 Exclusions applicable to Section A

5.2.1 Flood, landslip, landslide, subsidence, heave, earthquake and volcanic eruption, unless the Special Perils Extension is shown as applying in the Policy Schedule, and in any event any such loss or damage occurring within the waiting period set out in Clause A4.2.

5.2.2 Gradual Deterioration, and any loss or damage caused by Escape of Water which has continued, or which could reasonably have been detected, for a period of more than 14 days before it was discovered, or which results from the failure, deterioration or absence of tile grouting, sealant or waterproofing membranes in bathrooms, shower enclosures, balconies, planter boxes or flat roofs. This exclusion does not apply to sudden and visible damage caused by an Insured Peril which itself results from Gradual Deterioration, such as a sudden burst of a corroded pipe, save that the cost of repairing the corroded pipe itself is not covered.

5.2.3 Loss or damage caused by rain, hail, dust or wind-driven water entering the Buildings through any door, window, ventilator, roof, wall or other opening which was not damaged by an Insured Peril at the same time, including water entering through closed but ill-fitting windows or through a leaking roof.

5.2.4 While the Insured Premises are Unoccupied, loss or damage caused by theft or attempted theft, malicious damage, or Escape of Water, unless the Policyholder has notified the Company of the period of non-occupation and the Company has agreed in writing to continue cover. Where the Insured Premises are Unoccupied and the main water supply had been turned off at the stop valve (and, where a roof water tank is installed, the tank had been drained) before the premises became Unoccupied, this exclusion does not apply to Escape of Water.

5.2.5 Theft or attempted theft not involving forcible and violent entry into or exit from the Buildings, save as provided in Clause A2.4; theft by or with the connivance of any member of the household, domestic helper, tenant, lodger or paying guest; and theft of Contents from any car porch, garden, balcony, open verandah or other area of the Insured Premises that is not fully enclosed and lockable.

5.2.6 Loss of Money or Valuables in excess of the limits shown in the Benefits Schedule, and loss of Valuables from any unattended motor vehicle.

5.2.7 Mechanical or electrical breakdown or derangement of any machine, appliance or installation, including damage caused by a power surge or fluctuation in electricity supply except to the extent that Clause A2.8 applies.

5.2.8 Damage caused by domestic pets, rodents, insects or vermin, including termites and other wood-boring insects.

5.2.9 Settlement, shrinkage or expansion of the Buildings, defects in design, materials or workmanship, and the cost of rectifying any such defect, save that ensuing damage caused by an Insured Peril (other than subsidence under the Special Perils Extension) is not excluded.

5.2.10 Loss or damage occurring while the Insured Premises are let to a tenant or used for any trade, business or short-term rental (including through an online home-sharing platform), unless the letting or use has been declared to and accepted in writing by the Company.

5.2.11 Scratching, chipping or denting of any article, and breakage of fragile articles, except where caused by fire, theft or an Insured Peril other than Accidental Damage, or where Accidental Damage is covered for the tier selected and the breakage falls within it.

5.2.12 Any consequential loss, including loss of use, loss of value following repair, and loss of electronic data, save as expressly provided in Clause A3.

5.3 Exclusions applicable to Section B

5.3.1 Pre-existing Conditions, subject to the following. (a) A Pre-existing Condition which was declared in the proposal form, or in a health declaration submitted on reinstatement, and which the Company has accepted without imposing a specific exclusion endorsement, is not excluded, although the Company may have charged an additional premium for accepting it. (b) A Pre-existing Condition which was declared and which the Company has made the subject of a specific exclusion endorsement remains excluded for as long as that endorsement is in force; the Policyholder may request a review of the endorsement once in each Period of Insurance after the endorsement has been in force for 24 months, supported by a current medical report. (c) A Pre-existing Condition which was not declared is excluded until the Insured Person has been covered under Section B continuously, without lapse, for 24 months, after which this Exclusion 5.3.1 ceases to apply to it. Paragraph (c) is without prejudice to the Company's remedies under Schedule 9 to the Financial Services Act 2013 where the non-disclosure amounted to a misrepresentation.

5.3.2 Any Disability for which benefits are not payable by reason of a Waiting Period under Clause B5, and any subsequent treatment of the same Disability even after the Waiting Period has expired, where the symptoms first manifested or the condition was first diagnosed during the Waiting Period.

5.3.3 Congenital Conditions, except those which were neither diagnosed nor manifested before the Insured Person attained the age of 17 years and of which the Insured Person and the Policyholder were unaware at the Effective Date.

5.3.4 Cosmetic or plastic surgery, and any treatment primarily for the purpose of improving appearance, except reconstructive surgery necessary to restore bodily function following an Injury and performed within 12 months after the Accident, or reconstructive surgery following a mastectomy for which benefits were paid under this Policy.

5.3.5 Pregnancy, childbirth, miscarriage, abortion, termination of pregnancy, and any complication of any of them; birth control; infertility investigation and treatment including assisted reproduction; and sterilisation or its reversal. This exclusion does not apply to ectopic pregnancy.

5.3.6 Dental treatment of any kind, including orthodontic treatment, dentures and dental implants, except as provided in Clause B4.2 or where dental surgery is performed in a Hospital as an Inpatient to treat an Injury.

5.3.7 Eyeglasses, contact lenses, refractive surgery including LASIK, hearing aids, and the fitting or cost of any external prosthesis, appliance or durable medical equipment, including wheelchairs, crutches, orthotic braces, nebulisers and home oxygen equipment, except artificial limbs, intraocular lenses and heart valves implanted during surgery covered under this Policy.

5.3.8 Routine medical examinations, health screening, check-ups, vaccinations and immunisations, and any investigation not directed towards the treatment of a Disability with signs or symptoms, including investigations carried out because of a family history of a condition.

5.3.9 Outpatient Treatment, including outpatient physiotherapy, speech therapy, occupational therapy, and outpatient medication, except to the extent covered under Clause B3 (Pre-hospitalisation and Post-hospitalisation) or Clause B4 (Outpatient benefits).

5.3.10 Psychiatric, psychological and mental or nervous disorders, including anxiety, depression, attention deficit disorders, autism spectrum disorders, behavioural and learning difficulties, and sleep disorders including sleep apnoea; intentional self-inflicted Injury or attempted suicide, whether the Insured Person was sane or insane; and treatment arising from the abuse of alcohol or drugs other than drugs taken as prescribed by a Medical Practitioner.

5.3.11 Injury sustained while engaging in any sport or pastime as a professional or for payment, in motor racing or motorcycle racing other than on a public road, in underwater activities below a depth of 30 metres, or in mountaineering requiring the use of ropes or guides.

5.3.12 Traditional and complementary medicine of any kind, including herbal medicine, homeopathy and massage, except acupuncture or chiropractic treatment provided by a practitioner registered under the Traditional and Complementary Medicine Act 2016, received as Post-hospitalisation treatment on the written referral of the attending Medical Practitioner, and within the sub-limit shown in the Benefits Schedule.

5.3.13 Treatment received outside Malaysia except as provided in Clause B8.

5.3.14 Hospitalisation primarily for investigatory or diagnostic purposes, including an admission for diagnostic tests where no Illness or Injury is diagnosed or where the diagnosed condition does not itself require Hospitalisation; and any stay which is primarily for rest, convalescence, custodial care, rehabilitation or respite.

5.3.15 Human immunodeficiency virus (HIV) infection and any HIV-related Illness, including AIDS, and sexually transmitted diseases, except HIV infection acquired through a blood transfusion received after the Effective Date or through an occupational exposure suffered by a registered medical, dental or nursing professional in the course of duty.

5.3.16 Experimental or unproven treatment, drugs not registered for use in Malaysia by the relevant authority, and the use of registered drugs outside their approved indication unless recognised as standard treatment in published clinical guidelines in Malaysia.

5.3.17 Organ donation by the Insured Person, and the cost of acquiring an organ for transplant, save that the surgical and hospital charges of an organ transplant in which the Insured Person is the recipient are covered where the Benefits Schedule shows Organ Transplant as available for the tier selected.

Part 6 — General Conditions

6.1 Duty of disclosure. This Policy is a consumer insurance contract. The Policyholder and each Insured Person must take reasonable care not to make a misrepresentation in answering any question asked by the Company before the contract is entered into, varied or renewed. Where a misrepresentation is made, the Company's remedies are those set out in Schedule 9 to the Financial Services Act 2013 and depend on whether the misrepresentation was deliberate or reckless, or careless.

6.2 Reasonable precautions. The Policyholder must take all reasonable steps to prevent loss or damage, maintain the Buildings and their plumbing, roof and drainage in a good state of repair, and remedy any defect or danger as soon as it becomes apparent. Failure to maintain the Buildings may be relevant to whether a loss results from Gradual Deterioration under Exclusion 5.2.2.

6.3 Change in risk. The Policyholder must notify the Company in writing, before the change occurs or as soon as reasonably practicable afterwards, of any structural alteration or extension to the Buildings; any change in the use of the Insured Premises, including letting, short-term rental or business use; any intended period of non-occupation exceeding the permitted period for the tier selected; and any change of address. The Company may, on receiving such notice, vary the premium or the terms of cover, or decline to continue cover by giving notice under Condition 7.7.

6.4 Claims conditions. On the happening of any event which may give rise to a claim, the Policyholder or Insured Person must (a) take all reasonable steps to minimise the loss; (b) notify the Company, and where required the police, within the time limits stated in the Claims Procedure Guide for the type of claim concerned; (c) submit the claim form and the documents required by the Claims Procedure Guide within the time stated there; (d) retain damaged property for inspection until the Company or its Loss Adjuster confirms it may be disposed of, except as the Claims Procedure Guide otherwise permits; and (e) give the Company all information and assistance it may reasonably require, including authority to obtain medical records. Failure to comply with paragraph (b) or (c) will not of itself cause a claim to be rejected, but the Company may reduce the amount payable to the extent that its position has been prejudiced by the failure. The Policyholder must not admit liability or make any offer, promise or payment to a third party in connection with a claim without the Company's written consent.

6.5 No abandonment. The Policyholder may not abandon any property to the Company, whether or not the Company has taken possession of it. Salvage of any property for which the Company has paid a total loss becomes the property of the Company.

6.6 Other insurance. Under Section A, if at the time of a loss there is any other insurance covering the same property against the same peril, the Company will pay only its rateable proportion of the loss. Under Section B, if an Insured Person is entitled to benefits under any other medical insurance or employer's medical scheme, the Company will pay only the balance of eligible charges remaining after that other insurance or scheme has paid, subject to the limits of this Policy; the Insured Person may nevertheless elect to claim under this Policy first where the other insurance or scheme is an individual policy.

6.7 Subrogation. The Company is entitled, before or after payment of any claim under Section A, to take over and conduct in the name of the Policyholder the defence or settlement of any claim or to pursue in the Policyholder's name any right of recovery against a third party, including a neighbouring owner or a management body from whose property an Escape of Water originated. The Company waives its rights of subrogation against any member of the Policyholder's household. The Company does not exercise rights of subrogation under Section B.

6.8 Fraud. If any claim is fraudulent in any respect, or if any fraudulent means or device is used by the Policyholder, an Insured Person or anyone acting on their behalf to obtain a benefit, the claim shall be forfeited and the Company may, by notice, treat the contract as terminated from the date of the fraudulent act, without refund of premium.

6.9 Notices. Notices to the Policyholder will be sent to the last postal or email address notified to the Company. Notices to the Company must be in writing and are effective on receipt.

6.10 Governing law and language. This Policy is governed by the laws of Malaysia. This Policy is issued in English and in Bahasa Malaysia; in the event of any inconsistency between the two versions, the English version prevails.

Part 7 — Premium, Lapse, Reinstatement, Premium Deferment and Cancellation

7.1 Payment of premium. No cover is provided under either Section unless the premium, or where premium is payable by monthly instalment the first instalment, has been received by the Company before the Effective Date, in accordance with the premium payment requirements applicable to general insurance business in Malaysia.

7.2 Grace period for monthly instalments. Where premium is payable by monthly instalments, a grace period of 30 days from the due date is allowed for payment of each instalment after the first. The Policy remains in force during the grace period. If an event giving rise to a claim occurs during the grace period, the Company will pay the claim after deducting the unpaid instalment, and the deduction shall be treated as payment of that instalment. No grace period is allowed for annual premium, nor for the first monthly instalment.

7.3 Lapse. If an instalment remains unpaid at the end of the grace period and no claim has been paid under Condition 7.2 in respect of an event during that grace period, the Policy lapses automatically with effect from the due date of the unpaid instalment, without further notice from the Company. The Company will nevertheless write to the Policyholder to confirm the lapse. A lapsed Policy provides no cover for any event occurring, or treatment received, after the date of lapse. Lapse does not give rise to any refund of premium.

7.4 Reinstatement. A Policy which has lapsed under Condition 7.3 may be reinstated upon written application made within 90 days after the date of lapse, payment of all instalments in arrears, and, where Section B was in force, submission of a health declaration for each Insured Person that is satisfactory to the Company. No cover is provided for the period between lapse and reinstatement, and no claim may be made for any event occurring or treatment received during that period. On reinstatement the Waiting Periods in Clause B5 run again in full and the twelve-month period by reference to which a Pre-existing Condition is identified is measured from the date of reinstatement. A Policy that has been cancelled under Condition 7.6 or 7.7 cannot be reinstated, and an application made more than 90 days after lapse will be treated as a new proposal.

7.5 Premium Deferment Facility. (a) Eligibility. The Premium Deferment Facility is available to a Policyholder whose Policy has been in force continuously for at least 12 months, with no premium or instalment in arrears at the date of application, and who suffers a Qualifying Hardship Event, being (i) involuntary loss of employment

by way of retrenchment, redundancy or the closure of the employer's business, but not resignation, expiry of a fixed-term contract, or dismissal for misconduct; (ii) Hospitalisation of the Policyholder for a continuous period of more than 14 days; or (iii) a Catastrophe Event declared by the Company affecting the district in which the Insured Premises are located. (b) Application. The Policyholder must apply in writing within 60 days after the Qualifying Hardship Event, providing evidence of it. The Company will notify its decision within 10 working days after receiving a complete application. (c) Deferment Period. Where the application is approved, payment of up to three monthly instalments, or, for a Policyholder paying annually, payment of the renewal premium for a period of up to 90 days after the renewal date, is deferred (the "Deferment Period"). The Facility may be used only once in any period of 24 months. (d) Effect on cover. The Policy remains fully in force during the Deferment Period. The Deferment Period is not a lapse, suspension or cancellation, the Waiting Periods do not run again, and claims arising during the Deferment Period are assessed and paid in full without deduction of the deferred premium. (e) Repayment. The deferred premium is repayable, without interest, in six equal monthly amounts commencing on the first instalment date after the Deferment Period ends, in addition to the ordinary premium. Each repayment amount is treated as an instalment for the purposes of Conditions 7.2 and 7.3. (f) Cancellation during or after deferment. If the Policy is cancelled before the deferred premium has been fully repaid, the outstanding deferred premium will be deducted from any refund due under Condition 7.6, and any balance remaining is a debt due to the Company.

7.6 Cancellation by the Policyholder. (a) The Policyholder may cancel the whole Policy, or Section B alone, or remove an individual Insured Person from Section B, at any time by written notice. Cancellation takes effect on the date the notice is received by the Company or on any later date specified in it. Section A cannot be cancelled while Section B remains in force. (b) Section A refund. Where the Policy is cancelled and no claim has been paid or is pending under Section A in the current Period of Insurance, the Company will retain premium for Section A according to the short-period scale in the table below and refund the balance. Where a claim has been paid or is pending under Section A in the current Period of Insurance, no refund of Section A premium is made. (c) Section B refund. Where Section B, or the cover of an individual Insured Person under it, is cancelled, the Company will refund the unexpired Section B premium on a pro-rata daily basis, less an administrative fee of RM50 for each Insured Person whose cover is cancelled, irrespective of whether any claim has been paid under Section B. (d) Monthly instalments. Where premium is payable monthly, cancellation stops the collection of future instalments; the instalment covering the month in which cancellation takes effect is not refunded, and paragraphs (b) and (c) do not apply. (e) Cancellation within the free-look period is dealt with in the Product Disclosure Sheet and the letter accompanying the Policy, and is not subject to this Condition.

Period for which Section A has been in force	Premium retained by the Company
Not exceeding 1 week	12.5% of annual premium
Not exceeding 1 month	25% of annual premium
Not exceeding 2 months	37.5% of annual premium
Not exceeding 3 months	50% of annual premium
Not exceeding 4 months	62.5% of annual premium
Not exceeding 6 months	75% of annual premium
Not exceeding 8 months	87.5% of annual premium
Exceeding 8 months	100% of annual premium

7.7 Cancellation by the Company. The Company may cancel Section A by giving the Policyholder 14 days' notice in writing sent by registered post or email to the last known address, in which case the Company will refund the unexpired Section A premium on a pro-rata daily basis without any administrative fee. The Company may cancel Section B, or the cover of an Insured Person under it, only on the grounds of non-payment of premium, fraud under Condition 6.8, or a misrepresentation entitling the Company to do so under Schedule 9 to the Financial Services Act 2013, and not on the grounds of claims experience or health.

7.8 Effect of cancellation. Upon cancellation, cover under the cancelled Section ends on the effective date of cancellation. Any subsequent application for cover is a new proposal, and all Waiting Periods, the Special

Perils Extension waiting period, and the provisions relating to Pre-existing Conditions will apply afresh as if no previous cover had existed.

Part 8 — Complaints

8.1 Complaints about the Company's service or any claims decision are dealt with under the procedure described in the Claims Procedure Guide, which also sets out the Policyholder's right to refer an unresolved dispute to an external dispute resolution body. Use of that procedure does not affect the Policyholder's right to take legal proceedings.
