LUMINA KASTURI ASSURANCE BERHAD

Kasturi HomeCare & Health Plan

Claims Procedure Guide

LKA/HHP/CPG/2026-01 · Version 2.4 · Effective 1 July 2026

SYNTHETIC DOCUMENT — FOR TECHNICAL TESTING ONLY. Lumina Kasturi Assurance Berhad is a fictional insurer, and this document is one of four synthetic documents (Product Disclosure Sheet, Policy Wording, Benefits Schedule and Claims Procedure Guide) written to test retrieval and question-answering systems. It is not an offer of insurance, does not describe any real product, and must not be relied on for any real insurance decision. All names, addresses, telephone numbers, web addresses, premiums and benefit amounts are invented. References to Malaysian legislation and institutions are included for realism only and may not reflect the law accurately.

1. About this Guide

1.1 This Guide explains how to notify and submit a claim under the Kasturi HomeCare & Health Plan, the time limits that apply, the documents the Company needs, and how the Company will handle your claim. It forms part of your contract with Lumina Kasturi Assurance Berhad (the "Company") to the extent described in Clause 1.1 of the Policy Wording (Document Ref. LKA/HHP/PW/2026-01), namely as regards the time limits, forms and documents referred to in Condition 6.4 of the Policy Wording. The service standards in Section 6 describe how the Company aims to handle claims and do not form part of the contract.

1.2 This Guide does not tell you whether a particular loss or expense is covered. Cover depends on the Policy Wording, the Benefits Schedule (Document Ref. LKA/HHP/BS/2026-01) and your Policy Schedule. The fact that the Company has accepted a notification, issued a claim reference number, appointed a Loss Adjuster or issued a Guarantee Letter is not an admission that a claim is payable.

1.3 Words beginning with a capital letter have the meanings given in Part 2 of the Policy Wording. In addition, the following terms, which relate to claims administration, are defined in this Guide and carry the same meanings wherever they appear in the Policy Wording or the Benefits Schedule.

"Catastrophe Event" means a natural disaster or other event affecting a large number of policyholders in a defined geographical area, which the Company has declared in writing, by notice published on its website and sent to affected policyholders, to be a Catastrophe Event. A Catastrophe Event declaration specifies the districts and dates to which it applies. A declaration is an administrative measure: it changes the procedure and time limits for claims arising from the event, but does not extend cover to any loss that is not otherwise covered, and in particular does not provide Flood cover to a Policyholder whose Policy Schedule does not show the Special Perils Extension.

"Complete Claim" means a claim in respect of which the Company has received the duly completed claim form and every document listed for that claim type in Section 3 or Section 4 of this Guide, together with any further information or document the Company has requested in writing within the time stated in Section 6. Time limits for the Company's decision run from the date on which a claim becomes a Complete Claim.

"Guarantee Letter" means a letter issued by the Company, or by its appointed third-party administrator, to a Panel Hospital undertaking to pay the Hospital directly for eligible charges up to a stated amount in respect of an Insured Person's admission. A Guarantee Letter may be preliminary (issued at admission) or final (issued at discharge).

"Loss Adjuster" means an independent licensed adjuster appointed by the Company to investigate and assess a claim under Section A.

"Panel Hospital" means a Hospital with which the Company has an arrangement for cashless admission and direct billing, as listed on the Company's website on the date of admission. The panel list may change during the Period of Insurance; a Hospital's status on the date of admission is decisive, even where it leaves the panel during the stay.

2. How to contact the Claims Department

All telephone numbers, addresses and web addresses in this Guide are fictional and are included for the purposes of this synthetic document set.

Channel	Use it for	Availability
24-Hour Medical Assistance Line, 1-800-00-5879	Guarantee Letter requests by Panel Hospitals; notifying an Emergency admission to a non-Panel Hospital; medical assistance while outside Malaysia	24 hours, every day
HomeCare Claims Line, 1-300-00-5880	Notifying any Section A loss; authorising emergency repairs; Catastrophe Event enquiries	8.30 a.m. to 5.30 p.m., Monday to Friday; after hours, calls are transferred to the emergency repairs desk
Claims Portal, claims.luminakasturi.example	Submitting claim forms and documents for both Sections; tracking claim status	24 hours, every day
Email, claims@luminakasturi.example	Documents where the Portal cannot be used; correspondence	Monitored on working days
Post, Claims Department, Level 12, Menara Kasturi, Jalan Contoh 1, 50000 Kuala Lumpur	Original documents where requested	Working days

The Customer Care Centre does not accept claim notifications. A notification made to the Customer Care Centre or to your agent is treated as made to the Company on the date it is received by the Claims Department, not the date on which you contacted the Customer Care Centre or agent.

3. Claims under Section A (HomeCare)

3.1 What to do immediately

3.1.1 Your first obligation under Condition 6.4 of the Policy Wording is to take reasonable steps to prevent further damage. In the case of an Escape of Water, this means turning off the water supply at the stop valve, switching off electricity to any affected circuit, and removing Contents from the affected area where it is safe to do so. In the case of Storm damage to the roof, it means arranging temporary covering of the opening. In the case of Flood, it means moving Contents to a higher level where there is advance warning, and not re-entering the Buildings until the authorities confirm that it is safe.

3.1.2 Emergency repairs. You may arrange emergency repairs necessary to make the Buildings safe, secure or watertight, or to stop an Escape of Water, without first obtaining the Company's consent, up to a cost of RM1,500 for any one event. The cost of emergency repairs is treated as part of your claim: it is paid only if the underlying damage is covered, it counts towards the applicable limit in the Benefits Schedule, and the applicable Excess is deducted. Emergency repairs above RM1,500 require the Company's prior consent through the HomeCare Claims Line, which may be given by telephone. The cost of repairing the pipe or fitting from which water escaped is not recoverable under Section A even when it forms part of emergency repairs, although locating the pipe may fall within Tracing and Access.

3.1.3 Keeping damaged property. Do not dispose of damaged property until the Company or the Loss Adjuster has inspected it or has confirmed in writing that it may be disposed of. Where damaged items must be removed for reasons of health or safety, including perishable food, saturated carpets, mattresses and plasterboard affected by Flood water or sewage, you may dispose of them after taking clear photographs showing each item, its brand and model where visible, and the extent of the damage, and retaining a sample of any carpet or fabric.

3.2 Notification time limits

The time limits below run from the date on which you discovered the loss or damage, or ought reasonably to have discovered it. Failure to meet them does not automatically result in a claim being declined, but may result

in a reduction under Condition 6.4 of the Policy Wording where the delay has prejudiced the Company, for example because the cause of damage can no longer be established or because further damage has occurred that prompt notification would have prevented.

Type of loss	Police report	Notification to the Company
Theft, attempted theft, malicious damage, riot	Within 24 hours of discovery	Within 7 days of discovery
Theft of keys (Replacement of Locks)	Within 24 hours of discovery	Within 30 days of discovery
Escape of Water	Not required, unless the escape was caused by malicious damage	Within 30 days of discovery
Fire, lightning, explosion, Storm, impact, power surge, Accidental Damage	Required for fire only where the Fire and Rescue Department attended, in which case a copy of the Fire Department report is to be obtained	Within 30 days of discovery
Flood, landslip, earthquake (not during a Catastrophe Event)	Not required	Within 30 days of discovery
Flood, landslip, earthquake during a declared Catastrophe Event	Not required	Within 60 days after the end date stated in the Catastrophe Event declaration

3.3 Claim forms and submission time limits

3.3.1 Different claim forms are used for different perils because the Company needs different information to determine the cause of loss. Using the wrong form will not invalidate your claim, but the Company will ask you to complete the correct form, and your claim will not be a Complete Claim until you do.

3.3.2 Form HC-1 (General Home Claim) is used for fire, lightning, explosion, Storm, theft, impact, riot and malicious damage, power surge and Accidental Damage. Form HC-2 (Water Damage Claim) is used for Escape of Water, Tracing and Access and Loss of Metered Water. Form HC-2 asks when the leak was first noticed, what signs were visible before it was discovered, whether the Insured Premises were occupied at the time, and the source of the water, and must be accompanied by a written report from the plumber or contractor who located or repaired the source, identifying the fitting that failed and the nature of the failure (for example, burst, detached, cracked or corroded). Form HC-4 (Special Perils Claim) is used for Flood, landslip, subsidence and earthquake, and asks for the highest water level reached inside the Buildings, the direction from which water entered, and the duration of inundation.

3.3.3 Where water damage has occurred and you are uncertain whether it was caused by Escape of Water or by Flood, you should submit Form HC-2 and Form HC-4 together, and the Loss Adjuster will determine the cause. Where you do not hold the Special Perils Extension, you should nevertheless disclose on Form HC-2 any external water that entered the Buildings during the same period, because the Company is required to separate the two causes under the Benefits Schedule.

3.3.4 The completed claim form must be submitted within 30 days after notification, or within 60 days after notification in the case of a claim arising from a declared Catastrophe Event.

3.4 Documents required for Section A claims

Claim type	Documents required
All Section A claims	Completed claim form; photographs or video of the damage taken before any repair or clean-up; itemised list of damaged or lost property with age, purchase price and estimated replacement cost; proof of ownership for any item claimed above RM1,000 (receipts, warranty cards, bank or card statements, or photographs showing the item in the home); repair quotation from a contractor, or invoice where emergency repairs were carried out; bank account details for payment

Claim type	Documents required
Theft and malicious damage	Police report and any police investigation reference; photographs of the point of forced entry; for Valuables, valuation certificates dated not more than three years before the loss where available
Escape of Water	Plumber's or contractor's report described in paragraph 3.3.2; the failed pipe or fitting, where it has been removed; for strata property, correspondence with the management body confirming whether the source was within your parcel, a neighbouring parcel or common property
Tracing and Access	Contractor's invoice itemising the cost of locating the leak separately from the cost of repairing the pipe or fitting and the cost of making good
Flood and other special perils	Photographs showing the water line on internal walls; the date and time water first entered; for Contents in rooms at or below ground-floor level, a note of which room each item was in
Alternative Accommodation	Tenancy agreement or hotel invoices for the temporary accommodation; statement of normal household costs that ceased during the period (to be deducted)
Loss of Rent	Tenancy agreement in force at the date of loss; evidence that rent ceased to be payable
Power surge	Written report from a qualified electrician or appliance service centre confirming that the damage was caused by a power surge and not by internal failure

3.5 Loss Adjusters and inspection

3.5.1 The Company will appoint a Loss Adjuster for any Section A claim with an estimated value above RM10,000, for any Flood, landslip or earthquake claim regardless of value, and for any claim where the cause of loss is uncertain. For other claims, the Company may assess the claim on the basis of photographs and documents or through a desk review.

3.5.2 The Loss Adjuster will contact you within 2 working days of appointment and will inspect the Insured Premises within 7 working days of appointment, or within 14 working days of appointment for claims arising from a Catastrophe Event. The Loss Adjuster will issue a preliminary report to the Company within 14 days after inspection and a final report within 30 days after receiving all documents requested from you.

3.5.3 The Loss Adjuster acts for the Company and assesses the amount of the loss under the terms of the Policy. You are entitled to appoint your own loss assessor at your own expense; that cost is not recoverable under the Policy.

3.6 Strata property and damage originating elsewhere

3.6.1 Where an Escape of Water originates from a neighbouring parcel or from common property, you should notify the owner of the neighbouring parcel or the management body in writing as soon as possible and ask them to stop the escape. You may still claim under your own Policy, and the Company may then seek recovery from the party responsible under its rights of subrogation in Condition 6.7 of the Policy Wording.

3.6.2 The Excess is deducted from your claim in the usual way. If the Company subsequently recovers the full amount it has paid, together with the amount of your Excess, from the responsible party, the Company will refund the Excess to you. Partial recoveries are applied first to reimburse the Company.

3.7 Catastrophe Events

3.7.1 When a Catastrophe Event is declared, the following arrangements apply to claims arising from it in the districts and dates specified in the declaration: the extended notification and submission time limits in paragraphs 3.2 and 3.3.4; a simplified documentation requirement under which proof of ownership is not required for any single item below RM3,000; the extended inspection time in paragraph 3.5.2; and the advance payment in paragraph 3.7.2. A Catastrophe Event declaration may also constitute a Qualifying Hardship Event for the purposes of the Premium Deferment Facility under Condition 7.5 of the Policy Wording.

3.7.2 Advance payment. Where the Buildings have been damaged by Flood and the Special Perils Extension is in force, the Company will, on request, make an advance payment of RM5,000 or 20% of the Loss Adjuster's initial estimate of the covered loss, whichever is lower, within 7 working days after the Loss Adjuster's inspection. The advance is deducted from the final settlement. If the claim is subsequently found not to be payable, the advance is repayable.

3.8 Settlement of Section A claims

3.8.1 Once the Company has assessed a claim under Section A, it will issue an Offer of Settlement setting out the amount assessed, the Excess deducted, any reduction under the average condition in Clause A6 of the Policy Wording, and any reduction for prejudice under Condition 6.4. If you accept, you must return the signed discharge form within 30 days. If you do not respond within 60 days after the Offer of Settlement, the Company will send you a reminder and, if no response is received within a further 30 days, will close the claim file; a closed file may be reopened on request within 12 months after the date of the Offer of Settlement.

3.8.2 Where the Company elects to repair or reinstate through its own panel contractor rather than pay cash, you will be asked to pay the Excess to the contractor directly on completion.

4. Claims under Section B (Health)

4.1 Cashless admission at a Panel Hospital

4.1.1 Each Insured Person receives a medical card. For a planned or an Emergency admission to a Panel Hospital, present the medical card and your MyKad or passport at the admissions counter. The Panel Hospital will request a Guarantee Letter from the Company through the 24-Hour Medical Assistance Line. You do not need to call the Company yourself for an admission to a Panel Hospital.

4.1.2 For a planned admission, the Panel Hospital should submit the Guarantee Letter request at least 3 working days before the admission date. For an Emergency admission, the request is made at the time of admission.

4.1.3 The Company will respond to a Guarantee Letter request within 2 hours after receiving a complete request between 8.00 a.m. and 10.00 p.m., and within 4 hours after receiving a complete request at other times. A request is complete when the Panel Hospital has provided the admission form, the attending Medical Practitioner's provisional diagnosis, the history of the presenting illness, and the estimated cost.

4.1.4 Possible outcomes. A Guarantee Letter request may be (a) approved, in which case the Guarantee Letter states the amount guaranteed; (b) approved with a deposit, where the Insured Person is required to pay a deposit to the Hospital equal to the estimated Co-insurance or any amount above the room and board entitlement; (c) pending, where the Company needs further information before deciding, typically to determine whether the condition may be a Pre-existing Condition or whether a Waiting Period applies, in which case the Insured Person may be asked by the Hospital to pay a deposit and the Company will decide within 2 working days after receiving the further information; or (d) not approved.

4.1.5 A decision not to approve a Guarantee Letter is not a decision to decline the claim. It means only that the Company is not able to guarantee payment to the Hospital on the information available at admission. You may pay the Hospital and submit a reimbursement claim under paragraph 4.3, which will be fully assessed on the complete medical records. Conversely, the issue of a Guarantee Letter does not prevent the Company from recovering from the Insured Person any amount paid to the Hospital that is later found not to be payable under the Policy, for example because of an exclusion revealed by the final medical report.

4.1.6 On discharge, the Panel Hospital will request a final Guarantee Letter. You will be asked to pay any Co-insurance, any amount exceeding the limits for your tier, and any non-medical items such as toiletries, telephone charges, meals for visitors and extra beds (other than the parent or guardian allowance), and to sign the final bill.

4.2 Admission to a Hospital that is not a Panel Hospital

4.2.1 Emergency admission. Where an Insured Person is admitted in an Emergency to a Hospital that is not a Panel Hospital, including a Hospital outside Malaysia, the Insured Person or a family member must notify the 24-Hour Medical Assistance Line within 48 hours after admission, or as soon as reasonably possible where the Insured Person is incapable of doing so and no family member is present. Notification within that time preserves the ordinary Co-insurance terms for the admission as described in the Benefits Schedule. The Insured Person pays the Hospital and submits a reimbursement claim.

4.2.2 Planned admission. For a planned admission to a Hospital that is not a Panel Hospital, no Guarantee Letter will be issued. The Insured Person pays the Hospital and submits a reimbursement claim, and the adjusted Co-insurance in the Benefits Schedule applies. The Company recommends that you check the Panel Hospital list before a planned admission.

4.2.3 Government hospitals. For admission to a government hospital, no notification is required before or during the admission. The Government Hospital Daily Cash Allowance is claimed after discharge under paragraph 4.3.

4.3 Reimbursement claims: time limits

Reimbursement claims are submitted through the Claims Portal using Form MC-1 (Medical Reimbursement Claim). The time limits differ according to the type of benefit, and are measured from the dates shown below. The Pre-hospitalisation portion of a claim is submitted together with the inpatient claim for the Hospitalisation to which it relates and is not submitted separately. Post-hospitalisation expenses may be submitted in more than one batch during the Post-hospitalisation period, but the final batch must be submitted within the time shown.

Benefit claimed	Time limit	Measured from
Inpatient benefits, including Pre-hospitalisation and Day Surgery, where no final Guarantee Letter was issued or where amounts were paid by the Insured Person	30 days	Date of discharge
Post-hospitalisation treatment	30 days	Last day of the Post-hospitalisation period for the tier
Emergency Accident Outpatient Treatment, Outpatient Cancer Treatment, Outpatient Kidney Dialysis	60 days	Date of each treatment
General Outpatient Consultation and Specialist Outpatient Consultation (Platinum only)	60 days	Date of consultation
Government Hospital Daily Cash Allowance	90 days	Date of discharge
Treatment received outside Malaysia	90 days	Date of return to Malaysia

The Company will consider a claim submitted after the applicable time limit, and will not decline it by reason of delay alone unless it has been prejudiced under Condition 6.4 of the Policy Wording. As a matter of practice, the Company will regard itself as prejudiced where a claim is submitted more than 12 months after the relevant date shown above, because medical records may then no longer be obtainable in full, unless the delay was caused by the Insured Person's incapacity.

4.4 Documents required for Section B claims

Claim type	Documents required
All reimbursement claims	Form MC-1; itemised original bills and official receipts; the Insured Person's medical card number; bank account details of the Policyholder for payment
Inpatient and Day Surgery	Discharge summary; Attending Physician's Statement (Form MC-2) completed by the attending Medical Practitioner; histopathology report where tissue was removed; operation notes for surgery above RM10,000

Claim type	Documents required
Pre-hospitalisation	Referral letter or clinical notes showing that the tests or consultation related to the condition for which the Insured Person was subsequently admitted
Post-hospitalisation	Prescriptions and clinical notes showing that the treatment related to the Disability for which the Insured Person was hospitalised; for acupuncture or chiropractic treatment, the written referral by the attending Medical Practitioner and the practitioner's registration number
Emergency Accident Outpatient Treatment	Clinical notes recording the date and time of the Accident and the time of first treatment; police report for any road traffic accident
Outpatient Cancer Treatment	Histopathology report confirming malignancy, with the first claim only; treatment plan from the oncologist
Outpatient Kidney Dialysis	Nephrologist's report confirming end-stage renal failure, with the first claim only
Government Hospital Daily Cash Allowance	Discharge note or certificate of admission showing the dates of admission and discharge
Emergency admission to a non-Panel Hospital	In addition to the inpatient documents, the Medical Assistance Line reference number given when the admission was notified
Treatment outside Malaysia	Travel documents showing dates of departure from and return to Malaysia; English or Bahasa Malaysia translation of any document in another language

4.4.1 For claims of RM3,000 or less, scanned copies uploaded through the Claims Portal are accepted, and originals need not be sent unless the Company requests them within 6 months after payment. For claims above RM3,000, the Company may require the original bills and receipts to be sent by post before payment.

4.4.2 The fee charged by the attending Medical Practitioner for completing Form MC-2 is reimbursed by the Company up to RM100 per claim, whether or not the claim is payable, and is not subject to Co-insurance.

4.5 Investigation of Pre-existing Conditions

4.5.1 Where the information on a claim or Guarantee Letter request suggests that the condition may be a Pre-existing Condition, the Company may ask the Insured Person to authorise the release of medical records from other Medical Practitioners and Hospitals for the period of twelve months before the Effective Date or the date of the most recent reinstatement. While these records are awaited, the claim remains pending and is not yet a Complete Claim.

4.5.2 If the Company concludes that the condition is a Pre-existing Condition that is excluded, it will explain in writing which paragraph of Exclusion 5.3.1 of the Policy Wording applies and the medical evidence relied on. The Insured Person may ask for the decision to be reviewed under Section 7.

4.6 Claims involving other insurance

4.6.1 Where an Insured Person is also covered under an employer's medical scheme or another medical insurance policy, the claim should normally be submitted first to that scheme or insurer. The claim under this Policy should then be submitted with the other insurer's or employer's settlement letter showing the amount paid. The time limit in paragraph 4.3 for the claim under this Policy is extended to 30 days after the date of that settlement letter.

5. Payment of claims

5.1 Payment under Section A is made to the Policyholder by bank transfer, or, where the Buildings are subject to a housing loan and the Company has been notified of the financier's interest, to the financier or jointly to the financier and the Policyholder for any amount above RM20,000 relating to the Buildings.

5.2 Payment under Section B is made directly to the Panel Hospital where a final Guarantee Letter was issued, and otherwise to the Policyholder by bank transfer. Payments are not made to an Insured Person other than the Policyholder unless the Policyholder has authorised this in writing, or the Policyholder has died.

6. Claim status and service standards

6.1 The Claims Portal shows the status of each claim. The statuses have the following meanings. "Received" means that the Company has recorded the notification. "Documents Outstanding" means that the Company has written to you requesting a document or information, and the claim is not a Complete Claim. "Under Assessment" means that the claim is a Complete Claim, or that a Loss Adjuster is investigating. "Pending" means that the Company is waiting for information from a third party, such as a medical report, a police report or the other insurer's settlement letter, and the claim is not a Complete Claim. "Offer Issued" applies to Section A claims only and means that an Offer of Settlement has been sent. "Approved" and "Paid" have their ordinary meanings. "Declined" means that the Company has decided that the claim is not payable in whole or in part and has written to you giving its reasons. "Closed" means that the file has been closed, whether after payment, after a decision to decline, or under paragraph 3.8.1.

6.2 The Company aims to meet the following service standards. They do not affect your rights under the Policy.

Step	Service standard
Acknowledgement of a claim submitted through the Claims Portal	Within 3 working days after submission
Acknowledgement of a claim submitted by post or email	Within 7 working days after receipt
Request for any missing document or information	Within 7 working days after receipt of the claim; further requests may be made only where they arise from information received
Decision on a Section B claim	Within 14 working days after it becomes a Complete Claim
Decision on a Section A claim where no Loss Adjuster is appointed	Within 14 working days after it becomes a Complete Claim
Offer of Settlement on a Section A claim where a Loss Adjuster is appointed	Within 14 working days after receipt of the Loss Adjuster's final report
Payment of an approved Section B claim	Within 7 working days after the decision
Payment of a Section A claim	Within 7 working days after receipt of the signed discharge form

7. If you disagree with a decision

7.1 Internal review. If you disagree with a decision on your claim, including a decision to decline, a reduction under the average condition or for prejudice, or the amount of an Offer of Settlement, you may request a review by the Claims Review Panel by writing to the Claims Department within 60 days after the date of the decision letter, stating why you disagree and enclosing any additional information. The Claims Review Panel consists of officers who were not involved in the original decision and will give its written decision within 30 days after receiving your request.

7.2 Complaints. If you are dissatisfied with the Company's service, or with the outcome of the internal review, you may write to the Complaints Management Unit, Lumina Kasturi Assurance Berhad, Level 27, Menara Kasturi, Jalan Contoh 1, 50000 Kuala Lumpur, or email complaints@luminakasturi.example. The Complaints Management Unit will acknowledge your complaint within 2 working days and will respond in full within 14 working days, or will explain why more time is needed. You do not need to request an internal review under paragraph 7.1 before making a complaint.

7.3 External dispute resolution. If you remain dissatisfied after receiving the Company's final response, or if the Company has not responded in full within 60 days after receiving your complaint, you may refer the dispute to the financial ombudsman scheme approved under Malaysian law for disputes involving licensed insurers, within the time limit and subject to the monetary limits set by that scheme. You may also refer concerns about the Company's conduct to the central bank's consumer contact channel. Using these routes does not affect your right to take legal proceedings.

8. Fraud and privacy

8.1 The Company investigates claims where there are indications of fraud, and may share information with other insurers and industry claims databases for the purpose of preventing and detecting fraud. The consequences of a fraudulent claim are set out in Condition 6.8 of the Policy Wording.

8.2 Personal data, including medical information, supplied in connection with a claim is processed in accordance with the Company's privacy notice and the Personal Data Protection Act 2010, and is used for the purposes of assessing and paying the claim, recovering amounts from third parties, preventing fraud, and meeting regulatory requirements.
